BAD WEATHER!

Yet Business is Good!

What if rainy days keep customers from coming into your store in person! If you have a telephone they can call you up. And even on clear days many people prefer to order by telephone—especially when they're too tired to go out, or have to stay with the children, or for some other reason can't leave the house.

We will be glad to show you how you can build up a good telephone business. Just ask the operator for the Business Office and have them send a representative around with information.

IT'S WONDERFUL TO TALK TO YOU!

HERE'S a pleasure you'll Enjoy—

There is something really exciting about telephoning someone far away. It's hard to describe in words—you neeed to experience it.

Just try it some time soon when there's a birthday to remember—a lonesome boy or girl away at school or camp—a long spell between personal visits to the folks back home.

And there's this extra inducement—
Long Distance rates to most places
are reduced every night after 7
—and all day every Sunday.

ASK
your Architect —

to make provision—*in the plans*—for telephone conduit (inexpensive ordinary pipe) to be placed in the walls when you build. Then you can have modern telephone outlets where you want them. There will be no exposed wiring on base boards or moldings to mar the appearance of your rooms.

After the house is completed, wall insulation, fire stops, and concrete construction may make it impossible to run telephone wiring through walls.

Call the Business Office for complete information. New York Telephone Company.

WOULD you like to hear the voice of some friend or relative . . . whom you haven't seen in ages?

Why not go to them by telephone?

With the reduced rates it will probably cost far less than you'd guess. Long Distance rates to most places are reduced every night after 7 p.m. and all day every Sunday.

BAD WEATHER!

Yet Business is Good!

What if rainy days keep customers from coming into your store in person! If you have a telephone they can call you up. And even on clear days many people prefer to order by telephone—especially when they're too tired to go out, or have to stay with the children, or for some other reason can't leave the house.

We will be glad to show you how you can build up a good telephone business. Just ask the operator for the Business Office and have them send a representative around with information.

A HAPPY IDEA

Wish you could drop in for a chat with someone living far away—Mother, Dad or some close friend? Just pick up your telephone and go!

Long Distance Rates are low. Reductions every night after 7 and all day every Sunday to almost all points.

When you consider the nickels yo spend at telephone booths yo might save by having a telephon at home.

IT'S WONDERFUL TO TALK TO YOU!

HERE'S a pleasure you'll Enjoy—

There is something really exciting about telephoning someone far away. It's hard to describe in words—you need to experience it.

Just try it some time soon when there's a birthday to remember—a lonesome boy or girl away at school or camp—a long spell between personal visits to the folks back home.

And there's this extra inducement—Long Distance rates to most places are reduced every night after 7—and all day every Sunday.

BAD WEATHER!

Yet Business is Good!

What if rainy days keep customers from coming into your store in person! If you have a telephone they can call you up. And even on clear days many people prefer to order by telephone—especially when they're too tired to go out, or have to stay with the children, or for some other reason can't leave the house.

We will be glad to show you how you can build up a good telephone business. Just ask the operator for the Business Office and have them send a representative around with information.

Here's a Service that *Speeds* Business

If you have need for swift, written intercommunication in your business, you can profitably use Teletypewriter Service.

A large coal company saves time by using "teletype" to dispatch orders to branch yards in various parts of the city. A chemical company—for sending order numbers and details from warehouse. A brokerage house —for transmitting orders and instructions from one branch to its main office in a city several hundred miles away.

These are just a few of the ways business houses in all parts of the country are using the "teletype" to speed business and give better service to customers. There are two kinds of Teletypewriter Service: Private Line—where two or more machines are permanently connected; Exchange Service—where the machines are connected through a telephone central office in similar manner to the connection of one telephone with another.

OUTSTANDING FEATURES

Availability . . .	Teletypewriter "central" will connect any subscriber in the United States to any other subscriber.
Speed	Connections are fast—comparable to the telephone.
Two-Way Service	Subscribers can type back and forth on the same connection.
Accuracy	The copy received is identical with that transmitted.
Simplicity . . .	Any competent typist can operate it.
Privacy	Communication is direct between sender and receiver.
Flexibility . . .	Letter sized paper or your own forms can be used. As many as six copies can be made in one writing.

For further information, call the Business Office. (Dial 811)

ASK
your Architect—

to make provision—*in the plans*—for telephone conduit (inexpensive ordinary pipe) to be placed in the walls when you build. Then you can have modern telephone outlets where you want them. There will be no exposed wiring on baseboards or moldings to mar the appearance of your rooms.

After the house is completed, wall insulation, fire stops, and concrete construction may make it impossible to run telephone wiring through walls.

Call the Business Office for complete information. New York Telephone Company.

Many More Women

HAVE DISCOVERED THE MAGIC

in the words **SHOP BY TELEPHONE**

The things now being ordered by telephone include practically everything in the home. Every day busy women order their groceries, meats, vegetables and drugs this easy way. And a great many women have found it just as easy to order many other things by telephone.

When the weather's bad, or you wish you could rest instead of going out—let your telephone be your errand boy! You'll find your money goes just as far—and you'll have more time for yourself. New York Telephone Company.

You may be miles away from close friends and relatives, but you can talk with them—give and get news—by Long Distance. Expensive? . . . Not at all—especially after 7 p.m. and all day Sundays when rates are bargains.

No one is far away . . . by
TELEPHONE

Here's a Grand Idea for your Family

IT'S GREAT TO HEAR THE GOOD NEWS!

It may not get into the newspapers, that good news about Baby's new tooth, or your plans for that out-of-town trip, but to the folks back home it's one of the most important things in their life. And when they get it along with an always-welcome telephone visit with you, it's the biggest event of the day.

That's why so many families keep together by telephone. It's the friendly, sincere way to show people you really care about them.

A nice thing about this idea for your family is that it costs little, especially after 7 p.m. every evening and all day every Sunday when Long Distance rates to most points are reduced. New York Telephone Company.

Why Do You Rush?

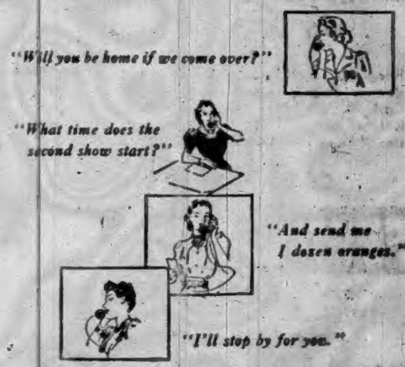
Let the Telephone Help You

Yes—the telephone is a great convenience for ordering things from stores and chatting with friends.

But that's only a small part of the hundred and one things it can do. On busy days and when you're in a hurry remember that your telephone can help you.

So easy to get things done without rushing yourself to death; so easy to get quick answers to all sorts of questions.

So before you reach for your hat and "take off" to do any errand in person, just say to yourself "Can I do this by telephone?" You'll be surprised how often the telephone can do it for you. New York Telephone Co.



"Will you be home if we come over?"
"What time does the second show start?"
"And send me I dozen oranges."
"I'll stop by for you."
